

New Eazyframe Solutions!

The EazyCut product range consists of state of the art solutions for the pruning and harvesting of flowers, plants and herbs.

The EazyCut systems offer you:

- ✓ 100% collection of the cuttings in the collection bag or box
- ✓ Perfect cutting quality (no better quality possible)
- ✓ Self-sharpening knives (extreme long life time)
- ✓ Low maintenance costs, short return on investment

With our new EazyCut “F-Series” trimmers we now can offer you very low cost frame mounted EazyCut solutions, both for floor and table trimming.

EazyCut Trimmers

The large EazyCut models are ideal for frame mounting, but can also be used perfectly by hand thanks to the special CE-approved grip system. The powerful and reliable engine drives the knife and ventilator. The strong airflow ensures that all cuttings are collected in the collection bag.

EazyCut 1200 and 1600 “F-series”

The new “F-series” (without the “CE” grip system) has been specially developed for frame mounting!

Both models have the same basic specs as the normal EazyCut models!

Specifications	EazyCut 1200-F	EazyCut 1600-F
Motor Type		Mitsubishi
Cubic Capacity		41 cc
Blade Type	Self-sharpening / Selbstschärfend	
Tooth Pitch	30 mm	
Cutting Length	1210 mm	1610 mm
Overall length	1500 mm	1900 mm
Dry weight	13 kg	15 kg

EazyFrame Floor Trimmers

Mounting the EazyCut 1200 and 1600 “F-series” into a frame offers you easy handling (by just one operator), maximum cost savings (up to more than 90%) and a constant trimming height.

The EazyFrame floor trimmers are light weight, maintenance free, and simple to use. One or more EazyCut system can be built into one frame.

Main characteristics:

- ✓ Flexible wheel base for optimal flexibility
 - ✓ Movable “inside” frame on which the trimmer is mounted
 - ✓ Supporting plate for the collection bag
- As an option the frame can be supplied with 2 or 4 “turning wheels” which can be turned by 90 degrees for easy transportation within the greenhouse.

EazyFrame Mobile Table Trimmers

For mobile table trimmer the EazyCut “F-series” can be mounted on a lightweight, mobile frame. This gives you the maximum flexibility to trim your tables anywhere in your greenhouse!

 [Video Mobile table trimming](#)

Trimming width 160 cm (or smaller). Total weight around 30 kg, dependent on the exact construction. Can easily be handled by 2 persons.

EazyFrame Stationary Table trimmers

If you want to trim large series of tables (by only one person) the stationary table trimmers are a perfect solution. These machines can be modified with an electrical drive.
